Projects

Faculty leave management

92 Days

Its a leave based project. In a college if a faculty wants to take a leave he/her must assign all periods to another faculty members so in this process they must go to the faculty must go to all the faculties whom have leaser periods on he/her leave day then they assign all the that day periods to another members. So in this process it's taken a time process and a faculty decides tmrw I want leave so he can manage this things before the day. If tha faculty wants to just few minutes of college starting time in the cause of any emergency. in that he can visit in our website just by few clicks the faculty can whom have leaser periods. like a faculty want leave on Monday then he select Monday and then select 1st period to check whom have leaser periods on Monday 1st period the website shows all the faculty members whom have leaser period on Monday 1st period. In the he can contact to that faculty by phone, email... Likewise we provide some detail of the faculties through that details they can
